

The Sermon on the Mount: Studies in Matthew 5-7 & Related Texts

by
Lorin L. Cranford

The study of Matthew 5-7 and related texts has been a continuing interest of mine since my seminary student days in the 1960s. I never tire of coming back repeatedly to this part of the New Testament for more understanding and for fresh insights into Christian discipleship. These words of Jesus can never be fully probed so that nothing else is to be learned.

This CD is presented in the hope that you will discover, if you haven't already, what I've found over these almost five decades of studying the Sermon on the Mount.

The material is presented either in the Adobe pdf file format or else in the web based html format. Parallel online hyperlinks of the files are included as well.

May God grant you the wonderful joy of discovery as you probe these materials.
